

There are two different weight and equipment variants in the C1-tourer range. For you as a customer, this distinction provides a clear indication of which models meet your requirements.

Our **lightweight 3.5 t models** are the perfect choice for those who value a lightweight vehicle that meets the requirements of the 3.5 t class and can be driven with a B Class EU driving licence. They combine innovative lightweight construction with the Carthago premium DNA.

Our **comfort 4.2 t models** are the perfect choice for those who are not dependent on the 3.5 t weight class and want to experience premium comfort. The huge payload reserves and maximum interior comfort of these models leave nothing to be desired.

To make it as easy as possible for you to choose the right model, here are the equipment differences between the lightweight 3.5 t and comfort 4.2 t models.

lightweight 3.5 t	comfort 4.2 t	Optional on lightweight 3.5 t
